RESPONSE

Sir:

This is in response to the United States Patent and Trademark Office Action mailed December 6, 2005, which response is being made on or before January 6, 2006, and for which no extension fees are due.

No amendments are made to the application at this time.

A response to the Examiner's restriction requirement follows.

Election

The Examiner has identified claims directed to two patentably distinct inventions, namely:

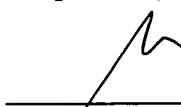

- Group I – method claims 1-16; and
- Group II – product claims 17-27.

The Examiner has required restriction of the claims to one of these groups for examination purposes.

In response, the Applicant hereby elects Group I, method claims 1-16, for immediate consideration.

The Applicant looks forward to receiving the results of the Examiner's substantive examination.

Respectfully submitted,

Mark M. Friedman
Attorney for Applicant
Registration No. 33,883

Date: December 29, 2005
